CHAINSEN

# Workbook 19 / 20

# snowline chainsen

## Pocket-sized safety and grip

snowline spikes are quick and easy to fit onto any footwear and provide safety and secure grip on slippery, icy or snowy ground.

snowline spikes are not only good for leisure activities but can be used for outdoor work, forestry, hunting, or in the rescue services or the armed forces.

The elastomer rubber construction does away with fiddly buckles or straps, and means that snowline spikes sit snug on your footwear and are put on / taken off in just seconds. Snowline Chainsen are CE certified and TÜV approved. 5-year warranty.

**Materials:** Chain + spikes in hardened stainless steel

**Rubber:** High-tech elastomer, tested down to -40°C.

# snowline Chainsen Trail

The Trail spikes are extremely lightweight (just 170 g / pair size M) and pack down extra small. 5 mm-long spikes ensure safety and perfect grip on icy trails and hardpack snow.

And in summer, they reduce your energy output and provide more secure footing on muddy, slippery trails or scree-covered paths.

- short, 5 mm-long stainless steel spikes
- thin elastomer rubber construction provides a secure fit, ideal for lightweight hiking, walking, running or trail running shoes
- extra small pack size and ultra-lightweight (from 170 g / pair)
- stuff sack included

It.#: 3924   Trail S   184 g	–	39,90 €
It.#: 3925   Trail M   170 g	–	39,90 €
It.#: 3926   Trail L   195 g	–	39,90 €
It.#: 3927   Trail XL   200 g	–	39,90 €
It.#: 3928   Trail XXL   290 g	–	39,90 €

## Running Starter Kit

15 pairs snowline Chainsen Trail spikes + 5 Buff® headbands

Trail spikes have long been popular among trail runners and are the perfect piece of kit to ensure they don't have to miss out on their usual running circuit during the colder months of the year. The spikes are short and tough enough to be used over stretches of pavement without being awkward or wearing down too fast. This also makes snowline spikes ideal for changeable conditions.

Select the sizes you require for the 15 pairs of snowline Chainsen Trail models and you'll receive 5 snowline-design Buff® headbands\* for free.

\* while stocks last      It.#: 3929

# snowline Chainsen Pro

The Pro model is the best option for really tough conditions, whether it's for leisure, outdoor work, forestry or hunting. New reinforced eyelets mean the elastomer rubber is now even more robust and tear-resistant.

- 1 cm-long stainless steel spikes
- thin elastomer rubber construction provides a secure fit, ideal for sturdier hiking / mountain boots or workwear boots
- compact pack size and minimal weight (320 g / pair size M)
- stuff sack included

It.#: 3901   Pro S   270 g	—	49,90 €
It.#: 3902   Pro M   320 g	—	49,90 €
It.#: 3903   Pro L   360 g	—	49,90 €
It.#: 3904   Pro XL   410 g	—	49,90 €
It.#: 3905   Pro XXL   430 g	—	49,90 €
It.#: 3900   Pro starter kit, 12 pr. in display box, sorted		

# snowline Chainsen Pro XT

For situations that need plenty of grip: The new Pro XT model (the evolution of the Pro model). Six additional spikes on the tip provide extra grip over steep terrain. CAUTION: snowline Chainsen spikes are not substitutes for crampons.

- 1 cm-long stainless steel spikes, additional spikes on the tip
- thin elastomer rubber construction provides a secure fit, ideal for sturdier hiking / mountain boots or work boots
- compact pack size and minimal weight (340 g / pair size M)
- stuff sack included

It.#: 3802   Pro XT M   340 g	—	55,90 €
It.#: 3803   Pro XT L   370 g	—	55,90 €
It.#: 3804   Pro XT XL   430 g	—	55,90 €
It.#: 3805   Pro XT XXL   460 g	—	55,90 €

# snowline Chainsen Light

With roughly 1 cm-long spikes, the Light model provides even more grip than the Trail model over snow, frozen or wet ground, or on steep ascents. This also makes the Light model ideally suited to more ambitious uses such as traversing snow fields or flat glaciated sections.

- 1 cm-long stainless steel spikes
- thin elastomer rubber construction provides a secure fit, ideal for lightweight running, hiking or trail running shoes
- very small pack size and lightweight (from 230 g / pair)
- stuff sack included

It.#: 3907   Light M   230 g	—	49,90 €
It.#: 3908   Light L   250 g	—	49,90 €
It.#: 3909   Light XL   265 g	—	49,90 €

## snowline Chainsen City

With the City model, you can say goodbye to slipping on icy city streets, even when wearing heels.

- short 5 mm-long spikes
- ultra-lightweight elastomer and chain construction for a perfect fit on urban footwear styles
- extra small pack size and ultra-lightweight (from 60 g / pair)
- stuff sack included

It.#: 3920 | city M | 60 g – 19,90 €

It.#: 3921 | city L | 65 g – 19,90 €

It.#: 3922 | city XL | 70 g – 19,90 €

## snowline gaiters

snowline gaiters are ideal for extended hikes through deep snow. High quality detailing with deep set tensioning hooks, a wide Velcro front closure and elasticated drawcord at the top.

- **Stuff sack included.**
- **Material: water resistant, breathable fabric**

It.#: 3911 | snowline gaiter M | 43 cm height – 34,90 €

It.#: 3912 | snowline gaiter L | 45 cm height – 34,90 €

It.#: 3913 | snowline gaiter XL | 47 cm height – 34,90 €

## OUTDOOR AGAINST CANCER

An initiative promoting the healing effects of being active outdoors

We have supported the Outdoor Against Cancer (OaC) initiative since 2017. Founded by professional mountain athlete and cancer survivor Petra Thaller, OaC aims to give cancer sufferers access to the beneficial effects of partaking in communal sports and outdoor activities and to permanently embed an awareness of these positive effects within our culture. The initiative is looking to make outdoor activities part and parcel of all cancer treatment.

To this end, OaC is building up a comprehensive range of outdoor training courses in Europe, because being active outdoors is beneficial to both our physical and mental health. It has been proven by numerous

studies and even by a Roman proverb: mens sana in corpore sano (a healthy mind in a healthy body). It is a great pleasure support this initiative with both our TUBBS and snowline brands.
